Why upgrade to an Insert?
No more chopping wood or messy embers. Enjoy a safe, sealed, efficient radiant fire.
Since 1890, we’ve been pioneering and perfecting radiant heat technology that generates constant, comfortable warmth within your home.

**RADIANT HEAT**
We put radiant warmth into every fire. You can feel it.

**AUTOFIRE™**
Pioneered by Valor, AutoFire automatically adjusts the fire for optimum efficiency and enjoyment.

**EFFICIENCY**
Radiant heat gas fireplaces are up to 30% more efficient than central forced air systems.

**SAFETY**
Our fires are put through rigorous safety testing in our in-house CSA approved lab.

Proudly made in North America.
ADJUSTABLE HEAT
Adjustable flame for constant, even warmth without having to cycle the fire on and off.

CERAMIC GLASS
Durable and robust ceramic glass improves radiant performance.

REALISTIC LOGS
High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

V-CLASS BURNER
Our precision stainless steel V-Class burner creates a new level of radiant fire and aesthetics.

ALUMINIZED STEEL
Aerodynamic aluminized steel firebox handles high temperatures and delivers efficient radiant warmth.
We design our expertly crafted logs as realistic-looking as possible, and engineer them to harness radiant heat from the flames and glowing embers. For a better look, go to valorfireplaces.com/g4 or visit your local Valor dealer.
This minimalist driftwood has a relaxing, easygoing flame that suits the picked-right-off-the-beach look.

The clear tumbled glass of the modern Murano fire beds is illuminated by the fire, casting reflections on the glass base.
LINERS

Choose a firebox liner to complement the logs and front styles you select as well as the surround of your current fireplace.

Please note the tint of the ceramic glass window can warm the liner colors, especially when the fire is on.

EDGEMONT FRONT IN NICKEL

RED BRICK
FLUTED BLACK
REFLECTIVE GLASS
Select a front that suits your home and style. Your dealer can help you choose, if necessary, an appropriate backing plate to complement your front and suit your installation.

To see more combinations, visit valorfireplaces.com/g3.5

**FRONTS**

**EDGEMONT**

Edgemont fronts are the slimmest—about 2" wide on all sides— and slightly offset from the backing plate that sits flat against the wall.

* EnerGuide Ratings and Outputs have been determined without a fan/blower, using the CSA P4.1-15 test method

About Our Efficiency Ratings

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. To find out more, visit valorfireplaces.com/efficiency

The G4's Valorstat Max Remote

Select, adjust and program your desired temperature.

Program the built-in timer to turn your fireplace ON before you wake up and DOWN when you go to bed.

Turn your pilot light ON and OFF with your programmable remote control. You'll never need to get on your hands and knees to light the pilot again!

Optional Wall Switch (1265WSK)

Refer to the G4 Insert Series engine manuals for product installation.

All product information is accurate at time of printing and is subject to change. For more information visit valorfireplaces.com/g4

⚠️ Warning

This product can expose you to chemicals including Benzene, which is known to the State of California to cause cancer and birth defects or other reproductive harm.

For more information go to www.P65Warnings.ca.gov

Note: Natural gas, in its original state, contains Benzene.
