

H6

LARGE FIREPLACE

LARGE VIEWING AREA
AND EFFICIENT, CLEAN
RADIANT HEAT.

valor Radiant
Gas Fireplaces

THE SCIENCE OF WARMTH™

Since 1890, we've been pioneering and perfecting radiant heat technology that generates constant, comfortable warmth within your home.

RADIANT HEAT

We put radiant warmth into every fire. You can feel the difference a Valor fire makes.

CERAMIC GLASS

Durable and robust ceramic glass improves radiant performance.

ADJUSTABLE HEAT

Adjustable flame for constant, even warmth without having to cycle the fire on and off.

ON FRONT:

REALISTIC LOGS

High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

Proudly Made
in North America

CONVECTIVE HEAT

Secondary heat exchanger naturally improves convective heat—without a fan.

EFFICIENCY

Radiant heat and zone heating technology are up to 30% more efficient than central forced air systems.

HEATSHIFT™ SYSTEM

Valued artwork, a TV or construction materials stay cooler despite the heat of our fireplaces.

ALUMINIZED STEEL

Lightweight, high temperature aluminized steel firebox and heat exchanger deliver efficient warmth, preventing rust and wear.

ENHANCED FLAME

Our fires create realistic, soothing flames and ambient glowing embers that radiate heat.

SAFETY

Our fires are put through rigorous safety testing in our in-house CSA approved lab.

LOGS 1400LSK

Please Note: Printed images may vary from actual product. All product information is accurate at time of printing and is subject to change. For more visit valorfireplaces.com

ZERO CLEARANCE (ZC)

Always a great addition to your new home or major reno. OK as an insert too!

1 LOGS

We designed these expertly crafted fire beds as realistic-looking as possible, and engineered them to harness radiant heat from the flames and glowing embers.

For more images, go to valorfireplaces.com or to see in person, visit your local Valor dealer.

DRIFTWOOD

PUT US OUTDOORS

Our fireplaces are highly suited to outdoor living with the generous warmth of radiant heat they provide—the only heat that works outside. valorfireplaces.com/outdoor

FINISHES

Whether it's a powder-coated or plated trim, our finishes are made to last.

If available, ask your Valor dealer to see an example in person or visit valorfireplaces.com

HEAT SHIFT™

KEEPS WALL COOLER

Pioneered by Valor, our unique HeatShift System naturally circulates up to 125 cubic feet of convective heat per minute through hidden ducts and back into the room—avoiding surface areas above the fireplace.

DESIGN FLEXIBILITY

Run standard finishing materials right up to the fireplace surround, including drywall, wood, tile and stone.

Install mantels lower than usual at a one-to-one ratio of depth to height from the fireplace surround.

TRADITIONAL LOGS 1400LSK
PLAIN BLACK LINER 1460PBL
1" FIXED FRAME 1430FFK
HEATSHIFT LDK1 + LDK2

IMPROVES PERFORMANCE

Harnessing convective warmth, up to 60% of fireplace heat rises and flows through HeatShift and back into the room. The remaining radiant heat emanates from the fireplace, keeping you warm.

NO ELECTRICITY REQUIRED

Heatshift circulates heat naturally using gravity and Valor product ingenuity—no need for a fan or electricity. No power—no problem.

CONSTRUCTION MADE EASY

Unlike many competing products, Valor fully ducts HeatShift for clean, safe air quality. HeatShift is built and designed in North America for North American homes, meeting building code requirements.

REMOTE CONTROL — STANDARD

VALOR REMOTE GV60

Your remote lets you select, adjust or program your desired temperature—the fire automatically adjusts to maintain the temperature of the room. Your remote even allows you to turn your pilot light on or off from the comfort of your sofa.

REMOTE BATTERY + WALL SWITCH RBWSK

Can't find your remote? Your wall switch allows you to do basic functions. Time to replace your receiver batteries? The switch provides easy access to the receiver batteries. To find out more, visit valorfireplaces.com/remote

ENERGY EFFICIENCY

EFFICIENCY RATINGS

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. All our fireplaces are available as natural gas or propane.

SECONDARY HEAT EXCHANGER

The built-in Secondary Heat Exchanger naturally improves convective heat—removing the need for a fan. Your fire will heat up fast for immediate comfort—and no electrical hookup will save you money.
