GAS FIREPLACE

HORIZON REIMAGINED WITH OUR
ADVANCED V-CLASS BURNER.

valor
FIREPLACES

Why Choose

Feel the heat.

All our gas fireplace radiate heat.
Like feeling the sun on your skin.
The best kind of heat there is.

Heater-rated

We're rated with space heaters so
we put Radiant Heat Technology
into every fire. You can feel it.

Works quietly.

We designed our gas fireplaces to move
the heated air via natural convection—
no need for a noisy blower.

Stainless Steel burner

Our precision stainless steel burners don't
rust, and create an enhanced flame and
ember glow that produces radiant heat.

Efficiency

Valor fireplaces are heater-rated. Our
Radiant Zone Heating is up to 25% more
efficient than central forced air systems.

A Valor?

Improving heat.

Our exclusive *Secondary Heat Exchanger* and our aerodynamic firebox naturally improve convective heat—without a fan.

Logs provide heat.

High definition, low mass fiber ceramic logs heat up and glow quickly. We harness the radiating heat from our logs, just like real logs.

Ceramic glass window

Valor's durable and robust ceramic glass window improves radiant performance by absorbing and distributing radiant heat.

Built to last.

Our aluminized steel fireboxes handle high temperatures, delivering efficient radiant warmth. Our baked-on powder-coated paint offers a better texture and a more durable finish.

No power?

No problem. All Valor gas fireplaces run on 4 AA batteries as the primary source of power—not as back-up power like other brands. And you'll save money on your electrical bill.

Safety

We put our fires through rigorous safety testing in our in-house CSA approved lab. We provide a screen with every fireplace to keep you and your loved ones safe.

Outdoor-friendly.

All Valor gas fireplaces are rated for outdoors under a covered patio and use quality materials that exceed the requirements for outdoor use.

Design your own.

Visit the Valor Fireplace Design Center to design your very own Valor Fireplace today.

REMOTE + WALL SWITCH

VALOR REMOTE GV60

Every Valor fireplace comes with a remote. You can select, adjust or program your desired temperature with your remote—the fire automatically adjusts to maintain the temperature of the room. You can even turn your pilot light on or off from the comfort of your sofa.

WALL SWITCH 1265WSK

Can't find your remote? The optional wall switch allows you to do basic functions, such as turn your fireplace on and off, and adjust the flame.

ENERGY EFFICIENCY

EFFICIENCY RATINGS

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. All our fireplaces are available as natural gas or propane.

Secondary Heat Exchanger

The built-in Secondary Heat Exchanger naturally improves convective heat—removing the need for a fan. Your fire will heat up fast for immediate comfort—and no electrical hookup will save you money. To find out more, visit valorfireplaces.com/efficiency

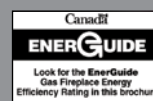

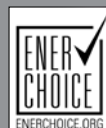

HORIZON EFFICIENCY

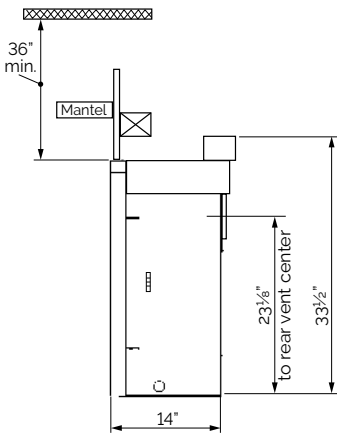

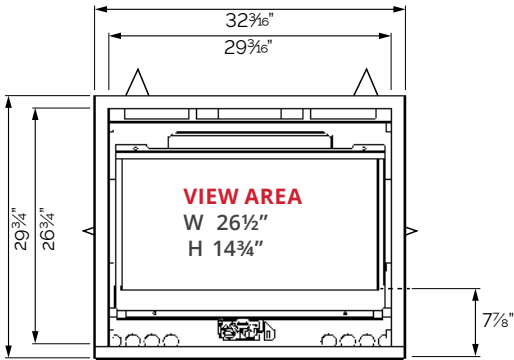

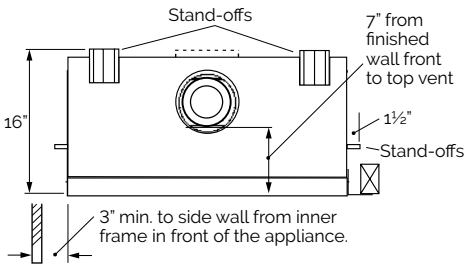

MODEL	FUEL	MAX. INPUT	MIN. INPUT	MAX. OUTPUT*	ENERGUIDE
534VN	NG	24,000	12,500	17,798	65%
534VP	LPG	23,500	13,900	17,761	66%

* EnerGuide Ratings and outputs have been determined without a fan/blower, using the CSA P4.1-15 test method.

Certified to ANSI Z21.88/ CSA 2.33 Vented Gas Fireplace Heater American National Standard. CGA-2.17-91 Gas Fired Appliances for use at high altitudes.

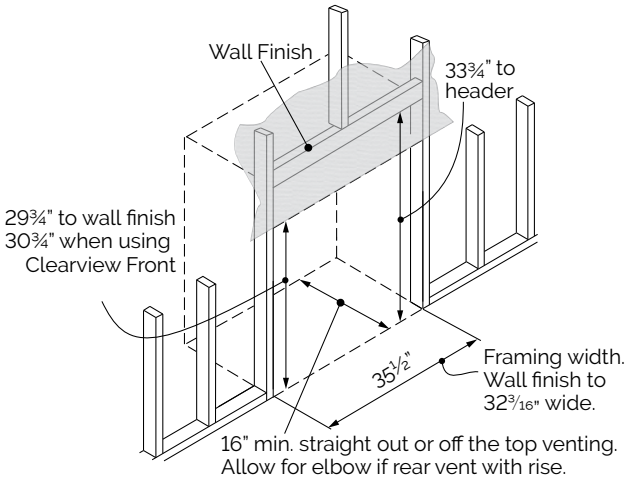

DIMENSIONS

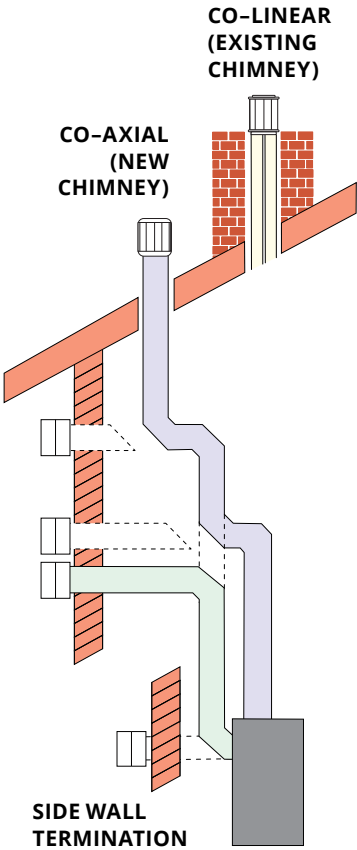

***ALWAYS REFER TO THE
