EXPERIENCE THE NEW V-CLASS BURNER.
Since 1890, we’ve pioneered and perfected radiant heat technology that generates constant, comfortable warmth within your home.
<table>
<thead>
<tr>
<th><strong>RADIANT HEAT</strong></th>
<th>We put radiant heat into every fire, the most comfortable warmth we know. You can feel it.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>EFFICIENCY</strong></td>
<td>Radiant heat and zone heating technology are up to 30% more efficient than central forced air systems.</td>
</tr>
<tr>
<td><strong>SAFETY</strong></td>
<td>Our fires are put through rigorous safety testing in our in-house CSA approved lab.</td>
</tr>
<tr>
<td><strong>CONVECTIVE HEAT</strong></td>
<td>Secondary heat exchanger naturally improve convective heat—without a fan. Heats up fast.</td>
</tr>
<tr>
<td><strong>ADJUSTABLE HEAT</strong></td>
<td>New Valor 10 remote control adjusts flame for constant, even warmth without having to cycle the fire on and off.</td>
</tr>
<tr>
<td><strong>ALUMINIZED STEEL</strong></td>
<td>Lightweight, high temperature aluminized steel firebox and heat exchanger deliver efficient warmth.</td>
</tr>
<tr>
<td><strong>HEATSHIFT™</strong></td>
<td>Select the finish you want, knowing that your artwork, TV and construction materials stay cooler and protected.</td>
</tr>
<tr>
<td><strong>CERAMIC GLASS</strong></td>
<td>Durable and robust ceramic glass improves radiant performance.</td>
</tr>
<tr>
<td><strong>REALISTIC LOGS</strong></td>
<td>High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.</td>
</tr>
<tr>
<td><strong>SCREENS</strong></td>
<td>Improved screen combines safety, style, performance and convenience, letting 12% more light and radiant heat through than conventional screens—brightening the fire.</td>
</tr>

The multi-sided series are the first heater-rated, efficient, multi-sided fireplaces.

Select from three multi-sided styles. Consider the size and shape of your spaces when choosing your fireplace. The radiant performance of the multi-dimensional design will heat any space—be it a living room, family room or great room. The following measurements give you an idea of the viewable area when installed. See manual for installation dimensions.

LX1 PIER 2100PK
BIRCH 2100BLK
REFLECTIVE GLASS LINER 2100RGP
HEATSHIFT™ WITH 38” PLENUM LDK4 (not shown)

</table>

Creates a strong central point in your home, especially in a living or great room.
LX2 CORNER LEFT OR RIGHT VIEWABLE AREA

Great for asymmetrical living space or transition between two rooms.

L 49½"  
D 14"  
H 16½"

LX1 3-SIDED PIER VIEWABLE AREA

Fits smaller rooms and helps define open spaces.

L 36"  
D 18½"  
H 16½"
Select a fire bed that suits your decor and personal style.
Consider how the logs and other fuel beds appear when the fire is on and when it's off—for example, in the summer. Which firebed will you enjoy most?

FIRE BED

LX1 + LX2

LX2 3-SIDED  2200K 
MURANO GLASS  2200DGM 
REFLECTIVE GLASS LINER  2200RGL 
HEATSHIFT™ WITH SIDE GRILLES  LDK3 (not shown) 
OVERHEAD LIGHTING STANDARD (not shown)
Selecting a liner is an important choice, particularly in the LX2 fireplaces where the liner features prominently.

Visit a Valor dealer to see a sample in person.

**FLUTED BLACK**
Provides a graphic contrast, defining the lighter fuel bed and fire.
LIMESTONE
Lightens the fireplace and softly blends with the fuel bed and fire.

REFLECTIVE BLACK GLASS
High definition glass contrasts and enhances the appearance of the firebed and flames.
KEEPS WALL COOLER
Pioneered by Valor, our unique HeatShift System naturally circulates up to 125 cubic feet of convective heat per minute through hidden ducts and back into the room—avoiding surface areas above the fireplace. So valued artwork, a TV or construction materials stay cooler—ideal for wood cladding.

IMPROVES PERFORMANCE
Harnessing convective warmth, up to 60% of fireplace heat rises and flows through HeatShift and back into the room. The remaining radiant heat emanates from the fireplace, keeping you warm.

DESIGN FLEXIBILITY
• Run standard finishing materials right up to the fireplace surround, including drywall, wood, tile, and stone.
• Install mantels lower than usual at a one-to-one ratio of depth to height from the fireplace surround when using HeatShift.
• Several flexible options for construction and design

CONSTRUCTION MADE EASY
Unlike many competitor products, HeatShift is built and designed in North America for North American homes, meeting building code requirements.

NO ELECTRICITY REQUIRED
• Heatshift circulates heat naturally using gravity and Valor product ingenuity—no need for a fan or electricity. No power—no problem.
• Valor fully ducts HeatShift for clean, safe air quality.

ZONE HEATING
Looking to heat other areas in your home? HeatShift’s optional Remote Blower helps manage your heat effectively by distributing warmth to other areas of your home—such as bedrooms, hallways or utility rooms.

HEAT SHIFT™
The LX1’s HeatShift canopy (shown here) allows you to build a pony wall that separates two rooms without blocking sight lines—and keeps surface areas cooler. To find out more, visit valorfireplaces.com.
Standard throughout the LX Series, Valor’s new interactive remote control has up-to-the-moment information on the state of your fireplace, such as temperature, and other customizable settings.

Set the temperature for specific times of the day.

Set the timer to turn the fireplace off up to 9 hours ahead.

Program your fireplace to turn on and off when you want at the temperature you want.

Accurately knows the current temperature of your fireplace.

Child Proof your remote for safety and ease.

Turn your fireplace lights on and off.

SMARTPHONE COMPATIBLE
Want to control your fireplace with your smart device? Our Valor 10 app will be available this year for download and is compatible with the Valor 10 Remote control.

VALOR 10 REMOTE CONTROL  NEW
Standard throughout the LX Series, Valor’s new interactive remote control has up-to-the-moment information on the state of your fireplace, such as temperature, and other customizable settings.

VALOR 10 APP  COMING SOON
The remote pairs with Valor’s upcoming Valor 10 App so you can control your LX fireplace with your smartphone. Available later this year.
When you decide to install your custom LX model, consider our optional steel framing kit. Easy to set up, the kits take the guesswork out of framing your new fireplace—builders, architects and designers appreciate them too.
SHELVING

BLACK GRANITE SHELVES—LX2 ONLY

Not sure how to finish your new fireplace? We offer competitively priced upper and lower black granite shelving—a high-end, custom look that’s easy and affordable to achieve. The shelving works with the framing kit, and is also easy to install on its own. Sold individually.
**LX2 3-SIDED**

**DIMENSIONS**

5' x 8” vent collar convertible to 4” x 6-5/8” with supplied adapter

### 2. FUEL BEDS

- Birch logs: 2100BLK
- Driftwood: 1705DWK
- Rock and Shale: 1714RSS
- Murano Glass: 2200DGM
- Splitwood: 1700SWK
- Decorative Glass: 2200DGS

### 3. LINERS

- Fluted Black: 2200FBL
- Reflective Glass: 2200RGL
- Limestone: 2200LML

### 4. HEAT SHIFT™

- Front mounted 48” plenum: LDK1
- Front mounted 38” plenum: LDK4
- Side mounted grille, two: LDK3
- Top mounted outlets: LDK7
- Heat canopy, pony wall: 2100HSC

### 5. REMOTE CONTROL

- Valor 10 NEW: GV60SYMAX
- Remote Battery and Wall Switch: RBWSK

### 6. OPTIONAL

- Steel Framing Kit: 2200SFK
- Lower Shelf, Black Granite: 2200LSB
- Upper Shelf, Black Granite: 2200USB
- Decorative Rock for Driftwood: 1506DRK
- Remote Blower, zone heating: 1270RBK

### EFFICIENCY RATINGS

*EnerGuide Ratings and Outputs have been determined without a fan/blower, using the CSA P4.1-15 test method.

---

About our efficiency ratings

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. Visit [valorfireplaces.com/efficiency](http://valorfireplaces.com/efficiency) for more information.
