Insert with AutoFire™

SECONDARY  
HEAT EXCHANGER  
IMPROVES EFFICIENCY.

 **Valor** Radiant  
Gas Fireplaces

# THE SCIENCE OF WARMTH™

Since 1890, we've been pioneering and perfecting radiant heat technology that generates constant, comfortable warmth within your home.

## AUTOFIRE™

Pioneered by Valor, AutoFire automatically adjusts the fire for optimum efficiency and enjoyment.

## SAFETY

Our fires are put through rigorous safety testing in our in-house CSA approved lab.

## REALISTIC LOGS

High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

### RADIANT HEAT

What's makes Valor unique?  
We put radiant heat technology  
into every fire. You can feel it.

### EFFICIENCY

Radiant zone heating is up to  
25% more efficient than central  
forced air systems.

### CONVECTIVE HEAT

Secondary Heat Exchanger  
naturally improves convective  
heat—without a fan.

### REMOTE CONTROL

Adjustable flame for constant, even  
warmth without having to cycle the  
fire on and off—or leave the sofa.

### NO POWER. NO PROBLEM.

Valor fireplaces heat without  
electricity—even in a power  
failure.

### CERAMIC GLASS

Durable and robust ceramic glass  
improves radiant performance.

### SUPERIOR ALUMINIZED STEEL

Aerodynamic aluminized steel  
firebox handles high temperatures,  
delivering efficient radiant warmth.

## 1 FIRE BEDS

We design all our expertly crafted logs and rocks as realistic-looking as possible, and engineer them to harness radiant heat from the flames and glowing embers. For a video of the fires, visit [valorfireplaces.com/g3](http://valorfireplaces.com/g3)

TRADITIONAL LOGS

DRIFTWOOD

ROCKS + DECORATIVE ROCK

## INSERT GAS FIREPLACES

Old wood fireplaces are highly inefficient heaters. Replace yours with a gas insert for an air-sealed, energy efficient and easy-to-use source of home comfort.

## 2 LINERS

Choose a firebox liner to complement the logs and front you select as well as the surround of your current fireplace. The tint of the ceramic glass window warms the liner colors, especially when the fire is on. To see more examples, visit your local Valor dealer or go to [valorfireplaces.com/g3](http://valorfireplaces.com/g3)

FLUTED BLACK

REFLECTIVE GLASS

RED BRICK

### 3 FRONTS

Select a front that suits your home and style. All G3 fronts will need a surround, found on the next page, which helps finish the opening of your fireplace cavity. Your dealer can help you choose a surround that complements your front and fits your installation.

To see examples, visit your Valor dealer or go to [valorfireplaces.com/g3](http://valorfireplaces.com/g3)

## 4 SURROUNDS

Surrounds fit behind or around your front. All our fronts are compatible with our surrounds, except the Picture Frame surround—exclusive to the Contemporary Surround front.

Choose from a variety of styles and sizes to cover your existing fireplace cavity. Your dealer can help you choose one that's compatible with your front and installation. To see examples with fronts, visit [design.valorfireplaces.com](http://design.valorfireplaces.com)

## REMOTE CONTROL

### VALOR REMOTE

Every Valor fireplace comes with a remote. Your remote lets you select and adjust your desired temperature—the fire automatically adjusts to maintain the temperature of the room. Your remote even allows you

to turn your pilot light on or off from the comfort of your sofa. No electricity needed: the remote is battery controlled.

For more information, visit [valorfireplaces.com/remote](http://valorfireplaces.com/remote)

## ENERGY EFFICIENCY

### EFFICIENCY RATINGS

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. All our fireplaces are available as natural gas or propane.

### SECONDARY HEAT EXCHANGER

The built-in Secondary Heat Exchanger naturally improves convective heat—removing the need for a fan. Your fire will heat up fast for immediate comfort—and with no need for electricity, you'll save money.

To find out more, visit [valorfireplaces.com/efficiency](http://valorfireplaces.com/efficiency)

## DIRECT VENT 739

## B-VENT 738

Direct Vent (739)  
Colinear 3"

Colinear Side Wall Kit (720SWK) available for Direct Vent Engine (not shown).

B-Vent (738)  
3" single liner

ALWAYS REFER TO THE MANUAL FOR COMPLETE INSTALLATION INSTRUCTIONS.  
[VALORFIREPLACES.COM/MANUALS](http://VALORFIREPLACES.COM/MANUALS)

## MINIMUM CAVITY DIMENSIONS

Minimum depth (X) = 12-14" (305-357 mm)—varies with outer trim options.

Minimum height (Y) = 20" (508 mm); 24" (610 mm) when using 763BPB Backing Plate.

Minimum width of fireplace opening at front is 28" (711 mm).

Note: check that masonry step doesn't interfere with install dimensions or vent pipe.

## VENTING + MANTEL CLEARANCES

	1"	1-6"	9"	12"
A	(25 mm)	(25-152 mm)	(229 mm)	(305 mm)
	36"	39"	42"	45"
B*	(914 mm)	(991 mm)	(1067 mm)	(1143 mm)

\*Measure taken from the underside of the mantel to finished hearth or surface that the unit is sitting on.

Sidewall Clearances: minimum distance from side of appliance (liner box) to combustible wall—9" (229 mm)
