G3.5

Insert with AutoFire™

TWO DECADES OF LEGENDARY HEAT.

Valor Radiant Gas Fireplaces
THE SCIENCE OF WARMTH™

Since 1890, we've been pioneering and perfecting radiant heat technology that generates constant, comfortable warmth within your home.

RADIANT HEAT
What’s makes Valor unique? We put radiant heat technology into every fire. You can feel it.

AUTOFIRE™
Pioneered by Valor, AutoFire automatically adjusts the fire for optimum efficiency and enjoyment.

EFFICIENCY
Radiant zone heating is up to 25% more efficient than central forced air systems.

SAFETY
Our fires are put through rigorous safety testing in our in-house CSA approved lab.

REMOTE CONTROL
Adjustable flame for constant, even warmth without having to cycle the fire on and off—or leave the sofa.

REALISTIC LOGS
High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

COVER:
Birch with Reflective Glass liner Craftsman Pewter front with Black Backing plate

TRADITIONAL LOGS
CERAMIC GLASS
Durable and robust ceramic glass improves radiant performance.

SUPERIOR ALUMINIZED STEEL
Aerodynamic aluminized steel firebox handles high temperatures, delivering efficient radiant warmth.

CONVECTIVE HEAT
Secondary Heat Exchanger naturally improves convective heat—without a fan.

V-CLASS BURNER
Our precision stainless steel V-Class burner creates an enhanced flame and ember glow.

NO POWER. NO PROBLEM.
Valor fireplaces heat without electricity—even in a power failure.

PROUDLY MADE IN NORTH AMERICA
INSERT GAS FIREPLACES

Old wood fireplaces are highly inefficient heaters. Replace yours with a gas insert for an air-sealed, energy efficient and easy-to-use source of home comfort.

We design all our expertly crafted logs as realistic-looking as possible, and engineer them to harness radiant heat from the flames and glowing embers.
To see in person, visit your local Valor dealer; or go to valorfireplaces/g35 for photos and videos of the fuel beds.

This minimalist Pebble Beach Driftwood has an easygoing flame and beachy look.

The modern Murano’s clear tumbled glass is illuminated by the fire, casting reflections on the glass base.
LINERS

Choose a firebox liner to complement the logs and front style you select as well as the surround of your current fireplace. Please note the tint of the ceramic glass window can warm the liner colors, especially when the fire is on. If possible, visit your local Valor dealer to see a sample in person.

Terminal Cap

Flashing

2 x 3" flex liners

Vertical vent run: Max. 40 feet Min. 10 feet

Existing Solid fuel fireplace and chimney

WARNING
This product can expose you to chemicals including Benzene, which is known to the State of California to cause cancer and birth defects or other reproductive harm.
For more information go to www.P65Warnings.ca.gov

Note: Natural gas, in its original state, contains Benzene.
EDGEMONT BACKING PLATES
All Edgemont, Hammered and Craftsman fronts require Edgemont backing plates, available in 3 and 4-sided styles and different thicknesses. The fronts are slightly offset from the backing plate. See below.

OTHER BACKING PLATES
The flat backing plates below pair with the 3" Floating fronts. Available in a small and large size, these backing plates may also be used with Edgemont backing plates to cover a larger opening. The Floating fronts sit proud of the backing plates by 1.5".
OPTIONS

1. **FUEL BED**

**ABOUT OUR EFFICIENCY RATINGS**

While the North American fireplace industry is largely self-regulated, at Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. To find out more, visit valorfireplaces.com/efficiency
