Linear
SERIES

EXPERIENCE THE
NEW V-CLASS BURNER.
THE SCIENCE OF WARMTH™

Since 1890, we’ve been pioneering and perfecting radiant heat technology that generates constant, comfortable warmth within your home.

ENHANCED FLAME
Our fires create realistic, soothing flames and ambient glowing embers that radiate heat.

SAFETY
Our fires are put through rigorous safety testing in our in-house CSA approved lab.

ALUMINIZED STEEL
Lightweight, high temperature aluminized steel firebox and heat exchanger deliver efficient warmth.

RADIANT HEAT
We put radiant warmth into every fire. You can feel it.

V-CLASS BURNER
New high temperature precision stainless steel burner creates a new level of radiant fire and aesthetics.

BIRCH LOGS

ON COVER AND THIS PAGE:
L3
BIRCH 1800BLK
REFLECTIVE GLASS LINER 1825RGL
1” TRIM 1875LFB

PROUDLY MADE IN NORTH AMERICA
ADJUSTABLE HEAT
Our remote controls provide adjustable flame for constant, even warmth without having to cycle the fire on and off.

REALISTIC LOGS
High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

CERAMIC GLASS WINDOW
Durable and robust ceramic glass improves radiant performance.

HEATSHIFT SYSTEM
Valued artwork, a TV or construction materials stay cooler despite the heat of our fireplaces.

EFFICIENCY
Radiant heat gas fireplaces are up to 30% more efficient than central forced air systems.

LINERS

Selecting a liner is an important choice, particularly in linear fireplaces where the liner features prominently.

Choose a liner that complements your logs as well as your fireplace’s surround. Liners can appear quite different, depending on if the fire is on or off.

Visit a Valor dealer to see a sample in person; or for online examples, go to valorfireplaces.com/linear

FLUTED BLACK
Provides a graphic contrast, defining the lighter fuel bed and fire.
REFLECTIVE BLACK GLASS
High definition glass contrasts and enhances the appearance of the firebed and flames.

STACKSTONE NEW
Warms the fireplace, and adds textured detail to the overall look of the fire.
1" ADJUSTABLE TRIM

The 1" trim can be inset but often sits proud of the fireplace wall. This trim's regular mesh lets out 12% more radiant heat and allows more light to escape for a brighter fire. HeatShift recommended.
CLEAN INSTALL KIT

(1¼ depth"

The CIK makes it easier to finish flush up to the tile for a clean finish. Our finer mesh, on the CIK only, is barely visible.

HeatShift required.

Speak with your local Valor Dealer or go to valorfireplaces.com to find out more about our types of trim.
Do everything you can do with your Valor 10 remote—and more—with our Valor 10 app.

Child Proof your remote for safety and ease.

Set the timer to turn the fireplace off up to 9 hours ahead.

Program your fireplace to turn on and off when you want at the temperature you want.

Accurately knows the current temperature of your room.

Set the temperature for specific times of the day.

STANDARD WITH ALL OUR LINEAR FIREPLACES.

**valor 10: remote**

**valor 10 remote control** NEW

Standard throughout the Linear Series, Valor’s new interactive remote control has up-to-the-moment information on the state of your fireplace, such as temperature, and other customizable settings. To find out more, go to valorfireplaces.com/remote
The Valor 10 remote pairs with the Valor 10 App so you can control your linear fireplace with your smartphone.

To find out more, go to valorfireplaces.com/valor10

**TAKE COMPLETE CONTROL**
Increase or decrease flame height to find the perfect ambiance. Use the color wheel to find the ideal temperature setting.

**PROGRAM ON THE GO**
Program days, times and temperature settings to match your lifestyle.
Set a countdown timer so your fireplace shuts off automatically.

**CONTROL FEATURES**
If you have a fan, set the speed of the fan from low to high.

**SAVE ON ENERGY COSTS**
Save energy while enjoying a changing, realistic flame with ECO mode.
Choose time and the percentage of energy saved is shown in the circle/leaf.

**GET IT ON**

ZONE HEATING
Looking to heat other areas in your home? HeatShift's optional Remote Blower helps manage your heat effectively by distributing warmth to other areas of your home—such as bedrooms, hallways or utility rooms.

6 HEATSHIFT™

KEEPS WALL COOLER
Pioneered by Valor, our unique HeatShift System naturally circulates up to 125 cubic feet of convective heat per minute through hidden ducts and back into the room—avoiding surface areas above the fireplace.

So valued artwork, a TV or construction materials stay cooler—ideal for wood cladding.

IMPROVES PERFORMANCE
Harnessing convective warmth, up to 60% of fireplace heat rises and flows through HeatShift and back into the room. The remaining radiant heat emanates from the fireplace, keeping you warm.

DESIGN FLEXIBILITY
• Run standard finishing materials right up to the fireplace surround, including drywall, wood, tile, and stone.
• Install mantels lower than usual at a one-to-one ratio of depth to height from the fireplace surround when using HeatShift.
• Several flexible options for construction and design

CONSTRUCTION MADE EASY
Unlike many competing products, HeatShift is built and designed in North America for North American homes, meeting building code requirements.

NO ELECTRICITY REQUIRED
• Heatshift circulates heat naturally using gravity and Valor product ingenuity—no need for a fan or electricity. No power—no problem.
• Valor fully ducts HeatShift for clean, safe air quality.

ZONE HEATING
Looking to heat other areas in your home? HeatShift's optional Remote Blower helps manage your heat effectively by distributing warmth to other areas of your home—such as bedrooms, hallways or utility rooms.
Use this table to determine the level of efficiency and performance of your fireplace. Ratings are based on Valor's top performing fireplaces in each of the column's categories.

* EnerGuide Ratings and outputs have been determined without a fan/blower, using the CSA P4.1-15 test method (2015) Standard with all our Linear fireplaces.
