ZC 539-550 Arches—Framing

Dec 2022
2/2

Framing

- The framing dimensions for installation of the 530 heater with the models 539 or 550 Arch Fronts are shown below.
- A non-combustible hearth is not necessary in front of the 530 heater.
- The 530 is approved for installation directly on any combustible material **other than** soft flooring material such as carpet or vinyl.
- Any framing construction must be clear of the stand-offs—see Dimensions & Clearances.
- A hearth or floor, flush with the bottom of the heater, will be required to support the removable hearth fender.
