Model 922 Adorn
Open Fronted, Coal Effect
Gravity Vented Fireplace

Model 922 Fireplace may be installed either as an insert into existing solid fuel burning fireplaces and chimneys or as a zero clearance into an enclosure constructed of combustible material utilizing an optional 975 Zero Clearance Kit. Either the 923 Adorn or 539/549 Windsor Arch cast iron fronts may be used with the 922 fireplace. Windsor Arch fronts will also require a 540 WDK wire guard and mounting hardware kit. Refer to the 922 Heater and 975 ZCK manuals for full installation details.
