

Product Guide

Valor Gas Fireplaces

Feel the heat.

Our gas fireplace radiate heat. Like the sun on your skin. The best kind of heat there is.

Improving heat

Our exclusive *Secondary Heat Exchanger* and our aerodynamic firebox naturally improve convective heat—without a fan.

Ceramic glass window

Valor's durable and robust ceramic glass window improves radiant performance by absorbing and distributing radiant heat.

Works quietly.

We designed our gas fireplaces to move the heated air via natural convection at the rate of 120 cubic foot per minute—no need for a noisy blower.

Efficiency

Valor fireplaces are heater-rated. Our Radiant Zone Heating is up to 25% more efficient than central forced air systems.

Safety

We put our fires through rigorous safety testing in our in-house CSA approved lab. We provide a screen with every fireplace to keep you and your loved ones safe.

Heater-rated

Rated with space heaters, we put Radiant Heat Technology into every fire. You can feel it.

Logs provide heat.

High definition, low mass fiber ceramic logs heat up and glow quickly. We harness the radiating heat from our logs, just like real logs.

Stainless Steel burner

Our precision stainless steel burners don't rust, and create an enhanced flame and ember glow that produces radiant heat.

Built to last.

Our aluminized steel fireboxes handle high temperatures, delivering efficient radiant heat. Our baked-on powder-coated paint offers a better texture and a more durable finish.

No power?

No problem. All Valor gas fireplaces run on 4 AA batteries as the primary source of power—not as back-up power like other brands. And you'll save money on your electrical bill.

Outdoor-friendly.

All Valor gas fireplaces are rated for outdoors under a covered patio and use quality materials that exceed the requirements for outdoor use.

Valor Electric Fireplaces

Feel the heat.

All our electric fireplaces also provide heat, and include a 1400/2800 watt heater.

Adjustable flame.

The remote control provides adjustable flame and color combinations to suit your style.

Cozy up your room.

Electric fireplaces are a simple way to create a cozy space in your home.

Easy and safe to use.

Electric fires are easy to use. No chopping of wood or messy logs and fumes from a wood fireplace.

Glow of the fire.

Our electric fireplaces creates soothing flames and an ambient glow that brings to mind a real fire.

Realistic-looking logs.

Valor's exclusive high definition logs create an authentic look.

Efficiency

Valor electric fireplaces are an efficient, cost effective way to bring the look and feel of a real fire into your home.

Design your own.
