

Looking for a value added promotion to start off the season? The Maxitrol Myfire Puck will be featured as our September 2024 monthly deal! Receive the MyFire puck at no cost when you order alongside a compatible Valor gas fireplace (as shown below).

What is the Maxitrol Myfire Puck?

The Myfire Puck is a smart control that works in conjunction with the GV60/Symax system. Its basic functions turn the fire on and off and adjust the flame height. The Myfire Puck is equipped with temperature sensing that allows the use of the popular myfire mobile app.

As shown on myfireapp.com, the app’s interactive, colorful graphics make operating a smart phone or tablet easy and fun while giving absolute control of your gas fire. Its functions include Manual Mode, Thermostatic Mode, Program Mode, Eco Mode, Fan, Light, Personal Profiles Settings, and a Child Safety Lock.

The myfire Puck has blue backlit buttons, can be wall mounted with no additional holder.

Maxitrol MyFire Control Puck (part #4008313) - **\$225 Value**

Receive the MyFire Puck at no cost when ordering:
